

# Ammar Al-Sughair

## General Practitioner

### Summary

Empathetic General Practitioner with exceptional organizational and communication skills. Demonstrated ability to build trusting relationships with patients and families through a patient-centered approach. Proficient in performing physical examinations, ordering diagnostic tests, and delivering high-quality care. Strong interpersonal skills complement my commitment to patient well-being and effective healthcare delivery.

### Work Experience

#### Princess Basma Hospital - Surgical Unit - Internship

28.05.2023 - 27.08.2023

- Managed surgical cases in the emergency room, providing critical care and coordinating with specialists and residents for patient follow-up.
- Cultivated strong working relationships with surgeons, nurses, and other medical staff to ensure seamless patient care.
- Actively participated in pre-and post-operative care, including monitoring vital signs and ensuring patient stability.

#### Princess Basma Hospital - Internal Medicine Unit - Internship

28.08.2023 - 27.11.2023

- Managed internal medicine cases in the emergency room and provided follow-up care for hospitalized patients under the supervision of residents.
- Developed expertise in diagnosing and treating a wide range of conditions during the internship.
- Actively participated in clinical rounds, conferences, and educational events to broaden medical knowledge.
- Demonstrated excellent bedside manner, communication, and interpersonal skills in patient interactions.
- Ensured accurate and thorough documentation of medical records, including patient history and diagnoses.

#### Princess Rahma Hospital - Pediatric Unit - Internship

28.11.2023 - 27.01.2024

- Provided comprehensive care to infants, children, and teenagers, ensuring a comforting and supportive environment for both patients and their families.
- Worked closely with physicians and healthcare professionals to create tailored treatment plans, prioritizing the unique needs of pediatric patients.
- Demonstrated exceptional compassion and patience, effectively communicating with children at their level and alleviating their fears during medical procedures.
