### Highlights

- ✓ Strong communication skills with patients, families, and other medical professionals.
- ✓ Highly organized, which allows me to keep appointments, records, and patient details in order.
- ✓ Able to quickly and properly diagnose patient conditions in emergency situations to ensure they receive the treatment they need as soon as possible under controlled conditions.
- ✓ Detailed oriented, which reduces mistakes made in patient treatment, diagnosis, and medication administration.
- ✓ Leadership abilities to lead and manage practice staff in providing patients with quality care.
- ✓ Clinical and nonclinical communications skills and administrative support.

### Summary

Passionate Doctor with extensive experience in Internal Medicine and hospital settings. Adept in properly diagnosing and strategizing for the best treatment plans for patients. Bringing forth an empathetic and professional attitude, committed to providing patients with the best care possible. Experienced in counseling patients on preventative care and positive lifestyle changes. Strong focus on listening to addressing patient concerns and answering all questions in terms patients can easily understand. Willingness to work with all members of the medical team, listen to their suggestions, input to improve results and maximize patient satisfaction.
