PROJECTS

Human Doctor Project- Medical Mission

The flying doctors of America is the non-profitable organization that helped fund this mission in Al-Mafraq in Jordan. We helped diagnose over four hundred refugees, gave them primary medical care and the necessary medications or referrals needed depending on each case.

06/2023-06/2023

Breast Cancer Awareness Campaign- IFMSA

The IFMSA organized a breast cancer awareness campaign where we educated females on breast cancer, its risk factors and ways to screen for it. The project took place in King Abdullah University Hospital (KAUH).

10/2018-10/2018

EXPERIENCE

Intern

Princess Basma Educational Hospital (The Ministry Of Health In Jordan)/07/2022-07/2023

I have gained one year of experience in the field of medical practice and health care giving after my graduation by working in a hospital in Jordan (Princess Basma Educational Hospital). During this year, I have learned to give basic medical care and support, take comprehensive medical history from patients, perform proper physical examination, order the laboratory tests and imaging needed for each case and work accordingly to further diagnose and manage patients.

IVF Department Coordinator

Alia International Hospital (Kuwait)/12/2023-Present

My main job in this hospital was to explain hormonal injections to patients and give them their injections all while following up the patients' progress during their ultrasound visits. I was also allowed to assist in the OT which helped me develop many skills like using both the transvaginal & abdominal ultrasounds, catheterization, cannulation and subcuticular suturing of skin incisions. I'd also scrub in and assist in c-sections under proper supervision.

Co-author

PubMed & Cureus Medical Journal/02/2024-02/2024

We wrote a case report about a Previous Foreign Body Ingestion in the Appendix causing Acute Appendicitis:

DOI: 10.7759/cureus.34948

Medical Illustrator

neuropedia.net/06/2022-06/2023

Since I'm an artist, I used this skill to illustrate medical content for articles and research purposes related to neurology. I am still improving in this field, for "talent is a pursued interest".

EDUCATION

Degree In Medicine (M.D.)

Jordan University Of Science And Technology (JUST)/07/2016-07/2022

Grade

3.22

CERTIFICATES

Furute Leaders Training

IFMSA/12/2016-12/2016

Held at Jordan University of Science & Technology from 23rd to 24th of December, 2016. I have been trained on the following topics (Leadership, Communication skills, Presentation skills, Creativity, Time management and Social Responsibility).

Medical Debates

IFMSA- King Abdullah University Hospital/10/2017-10/2017

It is a project where medical students compete as groups to prove their arguments, whether with or against some of the important debatable medical topics that concern the whole world, with a great potential to improve discussion skills, communication skills and personality. More importantly, increasing knowledge among medical students about these topics as they dig deep while doing their research about the topic.

2nd KAR Annual conference Attendance

Kuwait Association Of Rheumatologists (KAR)/04/2024-04/2024

Red Flags For Gynecological Cancers Training Certificate
