Summary

Experienced general practitioner with a strong background in emergency care, aiming to contribute to your clinic by providing rapid, high-quality medical interventions, improving patient outcomes, and maintaining a focus on patient safety and well-being.

Experience

Jarash Governmental Hospital

Aug 2023 – Aug 2024

Internship (Imtyaz) Year

- The medical internship year is a pivotal period of professional development for newly graduated doctors. It bridges the gap between academic training and independent medical practice, providing essential hands-on experience in various medical disciplines. Under the guidance of experienced mentors, interns enhance their clinical skills, professional judgment, and ability to manage patient care. Despite its demanding nature, the internship year offers invaluable opportunities for growth, learning, and career advancement, laying a strong foundation for future specialization and medical practice.
