## CLINICAL EXPERIENCE

**[February 2023 – April 2023] [Elective Placement]  
Norfolk & Norwich University Hospital (NNUH)(NHS Foundation trust)**

During my two-month tenure at NNUH, I had the privilege of working under the supervision of Mr. Wissam Aljundi. I was happy to have the opportunity to learn from such a distinguished surgeon. Mr. Aljundi's expertise and guidance greatly contributed to my professional growth during my time at the hospital. His skillful approach to surgery and commitment to patient care solidified my admiration for him as a great surgeon.

**[June 2023 – July 2024] [Intern Doctor]  
Prince Rashed Bin Al-Hasan Military Hospital**

- Internal medicine clerkship.
- Surgery clerkship.
- Pediatric clerkship.
- Obstetrics and gynecology clerkship.

Responsible for outpatient clinic management, case presentation daily and patient monitoring.

**[August 2024 – present] [Junior clinical fellow]  
Bone Specialty Center**

Responsible for conducting comprehensive history taking and physical examinations for patients, diagnosing bone-related pathologies, ensuring patients receive the highest standard of care, assisting and providing support in various bone surgeries, and performing minor procedures under the supervision of senior orthopedic surgeons.

## **EXTRACURRICULAR EXPERIENCE**

---

### **[Al-jarrah lectures] [Mentor, Lecturer & Author] [March 2020 – present]**

Al-Jarrah Lectures is an educational organization dedicated to helping medical students excel in their modules and clinical rotations. We have recorded over 100 free lectures and more than 500 lectures overall, focusing on the clinical aspects of medicine. As the founder and leader, this experience has greatly enhanced my leadership, collaboration, and dedication, while also deepening my medical knowledge and interpersonal skills.

### **[Research team] [Mentor & Author] [December 2021 – Present]**

Our non-profit research team, composed of medical doctors and students passionate about surgery, is dedicated to enhancing the research skills of medical students and residents. Our mission is to promote a culture of evidence-based practice by integrating scientific research with clinical experience. Recognizing that research skills are often underemphasized in medical training programs in our country, we aim to bridge this gap and deepen understanding of orthopedic surgery through rigorous research initiatives.

## **RESEARCH**

---

### **PUBLISHED**

- **Early career accuracy of shoulder ultrasound in evaluating rotator cuff tendon tears; Naser Obeidat et al**
