

# SARA JARIR

General practitioner

## Profile

I am a General practitioner graduated from JU school of medicine and attended many off-course lectures during my six years of college to expand my view of life. I want to bring my skills to the healthcare facility where

I can be a strategic partner who plays an integral role in the growth of the public health, and where I too can grow while facing challenges and implementing solutions along the way.

Eager to learn new things with an excellent work ethic.
