Obsessive compulsive disorder, depression, anxiety among patient with crohns disease (Author)

Access to and quality of elective care: a prospective cohort study using hernia surgery as a tracer condition in 83 countries (Collaborators)

SUMMARY

During my studies, I learned the importance of being disciplined, completing my work on time and to a high standard, and supporting other students in their work Outside of work I keep myself fit and active and have a passion for self-development.

I always take ownership of my ongoing professional development toure you see a posthe return on your investment.

I consider myself to be hard working, self-motivated and trustworthy person.

I am a flexible and adoptable individual who work well both in a team environment.
